

Redefining the Retirement Lifestyle

Lake Prince Woods is redefining retirement living. Whether it's enjoying an activity on campus or daytripping with friends, Lake Prince Woods designs a lifestyle around residents. As a vibrant community of programs and services committed to helping people age better, Lake Prince Woods is there. Our story includes age, health, interests, and enjoyment – all are relevant, and all can evolve with your own unique story and specific situation.

For a spouse, Lake Prince Woods represents the option to reside in the same community when different care needs exist. For adult children, it means peace of mind that family members have support when it is needed and are actively engaged to make their own choices.

The lifestyle at Lake Prince Woods is one of quiet contentment – residents feel stress free, enjoy time alone and with each other. Here home maintenance is replaced with time devoted to the sweet sounds of retirement. Many residents experience the serenity of recognizing their decision to join Lake Prince Woods was the right one.

As a community, our mission is to provide the right services at the right time and in the right setting. Lake Prince Woods partners with residents and encourages them to select the services that fit their unique needs. Aging is personal. Engaging decisions early means Lake Prince Woods prevents a loss of control and places the power at our residents' fingertips.

INDEPENDENT LIVING RECONSIDERED

Lake Prince Woods is set in a beautifully maintained campus located in Suffolk, Virginia. The campus is a representation of our belief that aging is personal and unique to every individual. Levels of care vary, and flex. From independent living to assisted living and skilled nursing, the options are as multifaceted as our residents. Inhome services strike the right balance for residents who prefer to receive services in their home. Our interdisciplinary team offers comprehensive preventative and medical care to those who can reside at home, but who need a little assistance.

This is the essence of independence – living life on your terms with the support of a community who desires to see you succeed in retirement.

THOUGHTS FOR A LAKE PRINCE WOODS LIFESTYLE
